VOLUME 55 NO. 1 **JANUARY, 2025**

Tu B'Shevat, the 15th day of the Jewish month of Shevat, is a holiday also known as the New Year for Trees, which falls this year on Thursday, February 13. It is often considered a Jewish Arbor Day, and is an example of Jewish sensitivity to the environment.

Among the traditional customs celebrating the holiday are the planting of trees and eating fruits, especially those from Israel. For environmentalists, Tu B'Shevat is an ancient and authentic Jewish "Earth Day" that educates Jews about the Jewish tradition's advocacy of responsible stewardship of God's creation as manifested in ecological activism. While it may not be possible to plant anything in February here in New England, we can honor the occasion by stepping up our efforts at reducing waste and increasing our participation in recycling.

From the President...

We wish you all a Happy and Healthy New Year. It is officially winter and we have already had enough snow to shovel or plow, as well as bitter cold to last us for a while. To keep everyone safe and warm, we will be holding the January and February Shabbat services on Zoom only.

You may not notice the difference for a while, but the days are already getting longer. Which means it won't be too long before we wait for the groundhog to tell us how much longer winter will last.

The synagogue belongs to the members. As officers, we are only the caretakers. Help us continue its existence by joining us for an hour on the first Friday of the Hebrew month for the service and stay for a group chat.

Shalom,
Jerry Pressman, President
